ENERGY MANAGEMENT POLICY

Graphite India Limited is committed to increase the competitiveness by manufacturing and supply of Graphite, Carbon and other products in cost effective and energy efficient manner which in turn will protect environment and conserve natural resource. We will continually improve our energy performance for sustainable growth by:

- Complying all applicable legal and other requirements related to our energy use.
- Set objectives, targets and processes to conserve energy by implementing energy conservation projects and adopting energy efficient technologies.
- Promote usage of renewable, green and clean energy sources
- Creating awareness among all employees through training/information sharing and providing resources.
- Creating periodic audits to identify areas of improvement and integrating the same in our business planning
- Committing to procure energy products and services that impact energy performance through design of energy efficient products and services
- Measure, monitor and review the energy performance in accordance with this policy at regular intervals.
- Communicating the policy to all employees and stake holders
